SERVICE	DESCRIPTION	QTY	RATE	AMOUNT
Monthly inspection	Inspection of entire irrigation	1	500.00	500.00

This estimate is for performing monthly audits of entire system for 2026. This includes walking the entire property while zones are running. This also includes minor adjustments, couple broke nozzles, and seasonal programming. This price would also cover labor on a couple simple broke heads but would not include material. It is recommended for a property This size to have an additional repairs budget of roughly \$300 per audit for repairs to be made on the spot. This would cover additional labor and materials. Monthly repairs will be communicated VIA text or phone while onsite. This is NOT a contract but will be billed as a line item each month following the audit along with additional detailed repairs made.

SUBTOTAL	500.00
